

IEEE International Conference on Teaching, Assessment and Learning for Engineering 2022

The guidelines below are for papers that have been accepted following peer review.

1. Reinstate any information previously removed for blind review

This includes:

- Author names, affiliations and email addresses;
- Citations of and references to the authors' own publications;
- Any identifiers appearing within figures that were obscured to conceal the identity of the author(s) and/or their institution(s);
- Funding sources and other acknowledgments.

2. Ensure the paper has been prepared in accordance with IEEE style guidelines

(<https://www.ieee.org/conferences/publishing/templates.html>).

If the paper is not formatted correctly, it may be REJECTED by IEEE upload to Xplore. Please use [IEEE PDF eXpress](#) to check that you have adhered to the template and guidelines to avoid disappointment! The conference ID for eXpress is shown in your acceptance letter.

IMPORTANT

- Use of any other IEEE templates is not acceptable as there are subtle differences between those templates and the conference template that will affect the consistency in appearance of papers published in the proceedings.
- Do not change the paper size (A4) or margins in the template.
- Headers and footers are empty (no page numbers, etc.) Please remove "XXX-X-XXXX-XXXX-X/XX/\$XX.00 ©20XX IEEE" from footer line.
- Formatting of the paper must be done using the pre-defined MS-Word styles in the template, rather than manually. The paper must use all the predefined font styles, sizes etc. as per the template.

Page lengths must fall within the ranges listed below:

- Full paper: 6 – 8 pages
- Short paper: 4 – 6 pages
- Work-in-Progress paper: 2 – 4 pages

Some papers are required to reduce the length of the manuscript. Please check the acceptance letter for the requirement.

3. Complete the final submission checklist

Work your way through the following checklist and ensure that each requirement has been met.

Please confirm that your final submission satisfies each of the requirements below. Failure to meet any of these requirements may result in your paper being excluded from the proceedings and/or from IEEE Xplore.

Completed? (Y/N)	Requirement
	1. The Program Chairs' and reviewers' feedback has been thoroughly addressed, with appropriate revisions made to the paper or extended abstract in light of their feedback (please provide your responses in the attached table).
	2. The paper template has been used to prepare the manuscript, and all guidelines stipulated in the template have been strictly adhered to.
	3. Citations and referencing are in compliance with the IEEE Citation Reference guide.
	4. Formatting of the paper has been done using the pre-defined MS-Word styles in the template, rather than manually. The paper must use all the predefined font styles, sizes etc. as per the template.
	5. The paper is within allowed page range for the contribution type (6-8 pages for Full Paper, 4-6 pages for Short Paper, 2-4 pages for Work-in-Progress Paper). There are no superfluous blank pages at the end of the document.
	6. Paper size is set to A4. Margins are set to Top = 0.95 cm, Bottom = 2.54 cm, Left = 1.57 cm, Right = 1.57 cm.
	7. Headers and footers are empty (no page numbers, etc.) Please remove "XXX-X-XXXX-XXXX-X/XX/\$XX.00 ©20XX IEEE" from footer line.
	8. Any email addresses and URLs within the file are not rendered as hyperlinks (i.e., they must <u>not</u> be blue and underlined)
	9. The title of the paper is in Title Case. The title must not contain any line breaks; if there is a subtitle, it should be placed on the same line as the title, following a colon, in the same font size. The title must not be bolded, italicised, underlined, etc. There should be no full stop at the end of the title, and it should not be in quotation marks.
	10. Abstract begins with the word <i>Abstract</i> in bold and italics, then an em dash (—), then the text of the abstract. No spaces before or after the em dash. The abstract text itself should be in bold but not italicized, and should not contain symbols, special characters or math. Abstract must be a single, continuous paragraph (no manual line/paragraph breaks), and must not be longer than 200 words for Full Papers, 150 words for Short Papers and 100 words for Work-in-Progress Papers. For papers that are Work-in-Progress, the abstract must indicate that this is the case (e.g., "This work-in-progress paper describes a project ...").
	11. Keywords begin with the word <i>Keywords</i> in bold and italics, then an em dash (—), then the actual keywords. Please be specific—do not use generic terms like 'education' or 'educational technology'. The keywords should all be in lowercase (except for proper nouns, e.g., Microsoft Word, and acronyms, e.g., ANOVA), and they should be separated by commas (,), not semicolons (;). There should be no full stop after the last keyword.
	12. Section headings are in Title Case. Examples: <div style="text-align: center;"> <p>I. THIS IS THE CORRECT CASE FOR A FIRST-LEVEL SECTION HEADING</p> <p>II. THIS IS INCORRECT CASE FOR A FIRST-LEVEL SECTION HEADING</p> </div> <div style="text-align: center;"> <p>A. <i>This is the Correct Case for a Second-Level Section Heading</i></p> <p>B. THIS IS INCORRECT CASE FOR A SECOND-LEVEL HEADING</p> <p>C. <i>This is incorrect as well</i></p> </div>

	<p>13. Table styles are per the template. Table captions appear above tables, not below. Table column headings are in Title Case, and column subheadings are in sentence case. Table footnotes (if any) are right justified. Examples:</p> <p style="text-align: center;">TABLE I. CORRECT TABLE CAPTION</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th rowspan="2" style="text-align: left;">Correct Table Column Head</th> <th colspan="3" style="text-align: center;">Incorrect table column head</th> </tr> <tr> <th style="text-align: center;"><i>Correct table column subhead</i></th> <th style="text-align: center;"><i>Incorrect Table Column Subhead</i></th> <th style="text-align: center;"><i>INCORRECT TABLE COLUMN SUBHEAD</i></th> </tr> </thead> <tbody> <tr> <td style="text-align: left;">copy</td> <td style="text-align: center;">More table copy^a</td> <td></td> <td></td> </tr> </tbody> </table> <p style="text-align: right; margin-right: 100px;">^a Correctly aligned table footnote.</p> <p style="text-align: center;">TABLE II. INCORRECT TABLE CAPTION</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th rowspan="2" style="text-align: left;">INCORRECT TABLE COLUMN HEAD</th> <th colspan="3" style="text-align: center;">Correct Table Column Head</th> </tr> <tr> <th style="text-align: center;"><i>Incorrect Table Column Subhead</i></th> <th style="text-align: center;"><i>Correct table column subhead</i></th> <th style="text-align: center;"><i>Correct table column subhead</i></th> </tr> </thead> <tbody> <tr> <td style="text-align: left;">copy</td> <td style="text-align: center;">More table copy^a</td> <td></td> <td></td> </tr> </tbody> </table> <p style="text-align: right; margin-right: 100px;">^b Incorrectly aligned table footnote.</p>	Correct Table Column Head	Incorrect table column head			<i>Correct table column subhead</i>	<i>Incorrect Table Column Subhead</i>	<i>INCORRECT TABLE COLUMN SUBHEAD</i>	copy	More table copy ^a			INCORRECT TABLE COLUMN HEAD	Correct Table Column Head			<i>Incorrect Table Column Subhead</i>	<i>Correct table column subhead</i>	<i>Correct table column subhead</i>	copy	More table copy ^a		
Correct Table Column Head	Incorrect table column head																						
	<i>Correct table column subhead</i>	<i>Incorrect Table Column Subhead</i>	<i>INCORRECT TABLE COLUMN SUBHEAD</i>																				
copy	More table copy ^a																						
INCORRECT TABLE COLUMN HEAD	Correct Table Column Head																						
	<i>Incorrect Table Column Subhead</i>	<i>Correct table column subhead</i>	<i>Correct table column subhead</i>																				
copy	More table copy ^a																						
	<p>14. Figure captions must be below the figure, not above. They should be preceded with "Fig. X" (where 'X' is the number of the figure), not "Figure X".</p>																						
	<p>15. The PDF version of the camera-ready paper has been certified by IEEE PDF eXpress: https://www.pdf-express.org/</p>																						

4. Upload the final submission

The final submission, including both MS-Word and PDF versions of the camera-ready paper), should be uploaded to the conference's online submission system. Submissions cannot be accepted via email.

The PDF version must be generated from the MS-Word version.

IMPORTANT

- As part of the final submission process, you will be required to sign an electronic copyright form. If you fail to do this, your paper will not be able to be published in the proceedings or on IEEE Xplore.
- If any of the paper's authors are employees of the US Government or of a crown government (UK, Canada, Australia), please indicate that this is the case in the "Remarks" field of your submission, providing the relevant details.
- Ensure the title, abstract and keywords entered on the submission form are EXACTLY as they appear in your final paper. (Simply copy and paste from the Word version into the web form.) If there are discrepancies, there may be problems when we attempt to submit your paper to IEEE Xplore.
